## Policy Documents on Environment and Energy Usage

The Environment and Energy usage Policy of MVP'S Art, Commerce and Science College Nandgaon is to accomplish energy in such a systematic way so as to minimize its impact on the environment. The policy implies to explore the renewable energy resources to reduce the burden of the government and to find out alternate resources as solutions to the energy crisis.

This environment and energy policy is binding for all the components of the institution and applies to all its stakeholders and to the various activities undertaken by the institution. It will help us to embed efficiency and environmental awareness into our everyday activities, thus helping us to realize our responsibilities and commitment to conservation of natural resources and to limit its usage. Green Campus Committee is devoted to the cause of environmental awareness, to undertake green initiatives, and to conduct green literacy programmes to save energy and to protect environments.

### **Policies:**

- To assess our energy usage and measure its impact on the environment.
- To install photovoltaic solar panels for the generation of alternate energy.
- To install LED bulbs in the campus to save energy.
- To develop systematic waste management unit.
- To develop rain water harvesting unit.
- To undertake tree plantation initiative.
- To ensure the availability of necessary resources to achieve our objectives.
- To offer opportunities for students to engage in initiatives which contribute to environment protection.

**Policy on Management of the various types of degradable and nondegradable waste**

- The policy on the management of degradable and no degradable waste in a college.
- General principles and practices commonly found in waste management policies in college:

**Waste Segregation:** College often encourage or mandate the segregation of waste into different categories such as organic (degradable) waste, recyclables (paper, plastic, glass, metal), and non-recyclables (no degradable). Separate bins or collection points may be provided for each category to facilitate proper waste sorting.

**Recycling:** College promotes recycling as a key component of its waste management policy. They may have recycling bins or designated areas for recyclable materials, and educational campaigns to raise awareness about the importance of recycling.

**Composting:** The college implements composting programs for organic waste. This involves collecting food scraps, garden waste, and other biodegradable materials, which are then

composted to produce nutrient-rich soil amendments. The compost can be used in campus landscaping or community gardens.

**Education and Awareness:** College often conduct awareness campaigns, to educate students, staff, and the wider community about proper waste management practices. These initiatives aim to foster a culture of environmental responsibility and encourage individuals to make sustainable choices.

**WATER CONSERVATION POLICY**

**Introduction:**

Water scarcity is a significant issue in many regions, and colleges located in such areas have a responsibility to prioritize water conservation. Implementing a policy on water conservation will not only help address the local water scarcity problem but also promote sustainable practices among students, faculty, and staff. This policy outlines various measures and guidelines for water conservation at the college.

**Awareness and Education:**

- a. Conduct regular awareness to educate the college community about the importance of water conservation, the local water scarcity situation, and individual responsibilities.
- b. Promote sustainable water usage habits and provide practical tips on water-saving techniques.

**Infrastructure and Facilities:**

- a. Regularly maintain plumbing systems to prevent leaks and water wastage.
- b. Utilize rainwater harvesting systems to collect and reuse rainwater for non-potable purposes, such as landscape irrigation.

### **Landscape and Irrigation:**

- a. Design and maintain college landscapes using native, drought-resistant plants that require less water.
- b. Utilize efficient irrigation methods such as drip irrigation, which reduces water waste compared to traditional sprinkler systems.

### **Water Use Guidelines:**

- a. Encourage students, faculty, and staff to be mindful of their water usage habits.
- b. Promote shorter showers, turn off taps while brushing teeth, and report any leaks or water-related issues promptly.
- c. Monitor water consumption regularly and set targets for reduction in water usage.

### **Recycling and Reuse:**

- a. Encourage the use of reusable water bottles and provide water refill stations across campus to reduce plastic waste.

### **Monitoring:**

- a. Regularly monitor water consumption and track progress towards reduction targets.
- b. Maintenance of the Water distribution system on the Campus through the Green Committee.

**The Green Campus Policy**

**Scope:**

The Green Campus Policy will develop exciting new co-curricular and extra-curricular practices that encourage students to take the lead in creating positive change. These initiatives call for a thorough review of all infrastructural and administrative functions from the standpoints of energy efficiency, sustainability, and the environment. The focus areas of this policy are:

- **Plastic-Free Campus**
- **Landscaping Initiatives**

**Objectives:**

- To protect and conserve ecological systems and resources within the campus.
- To reduce the pollution on the campus.
- To integrate environmental concerns into policies, plans, and programs
- for social development and outreach activities.

- To work with all stakeholders and the local community to raise awareness and seek the adoption of environmental good practices and the reduction of any adverse effects on the environment.
- To continuously improve the efficient use of all resources, including energy and water, and to reduce consumption and the amount of waste produced, recovering and recycling waste where possible.
- To make the campus plastic free.

### **Policy Document on**

### **Disability-friendly and A Barrier-Free Environment**

The college firmly believes in the policy of inclusion. It works committedly in the direction of providing a barrier-free environment to the differently-abled with the objective of allowing them.

#### **Objectives:**

1. To ensure that students with disabilities get equal opportunities to explore their educational potentials.
2. To provide a nurturing and motivating environment for students with learning disabilities to accommodate their educational needs.
3. To make sure people don't feel left out or separated because of stereotypes and judgments, so they can feel good about themselves.

#### **The Objectives shall be achieved through following ways:**

- Extra time for completing assignments and projects, as well as journal submissions.
- Slight modifications in assignments.
- Additional support inside and outside the class for related queries.
- Pairing students with advanced learners in the class to support and share the knowledge.
- Additional time of 20 minutes has provided along with the 1 hour to complete the unit test. Likewise, additional 40 minutes has allotted along with 2-hour examination.
- Provision of writers, if requested.

- Ensuring adequate provisions in the infrastructure to provide a disabled-friendly and barrier-free campus.
- Walking Ramp facility is available for disabled students and staff.

**Providing support facilities :**

- **Infrastructural and Physical support**

**Furniture**

- Study chairs with attached writing pads in the classroom.
- Special Study chairs for left handed students.

**Restrooms**

- Access to western toilet is permitted to students (students who / physically disabled / on medical grounds).
- Library Staff to be trained to assist persons with disabilities.
- Giving them any other support as per requirement.
