

Maratha Vidya Prasarak Samaj's

Arts, Commerce and Science College, Nandgaon
Tal – Nandgaon, District Nashik – 423106 (M.S.) India.

Institutional Distinctiveness

Academic Year - 2020-2021

The MVP's Arts, Commerce and Science College known for its following features...

1. Effective use of research and ICT for teaching & learning.
2. Green Audit & Tree Plantation in College Campus.
3. Establishment of Solar Water Heater System for girl's hostel.

1. The institution provides students with the necessary teaching facilities including computer, projector, smart CD's, modules, overhead projector, virtual classroom etc. Our college teachers have also been instrumental in conducting video lectures through, YouTube, Zoom, Teach mint, Google Meet, Google docs, Classroom for students and they also get duly provided with teaching materials, mock exams through such apps. Also, many teachers have published their subject wise lecture series on YouTube and Unacademic for students. We have created subject and class wise WhatsApp groups for the students to share important Notice, subject related information, Notes, Videos, Audios, Power-point Presentations, Pdf etc. Teachers use new research to update their knowledge and provide it to students.

2. In our institution we have successfully conducted 'Tree Plantation Campaign' on various occasions to make our college greener, environment friendly & sustainable for all the stakeholders including students, teachers and society. Another innovative activity of our college is to have 'Green Audit' on campus. Under the Green Audit we have considered Water Supply & its Quality, Sewage Management, Water Harvesting, Noise Environment, Botanical Garden, Plant Diversity, Animal Diversity, Waste Management (Solid and E-Waste), Air Environment, & Safety like aspects to make our institution environmentally sustainable for all the stakeholders concerned to it.

3. One of the Eco-Friendly activities of our institution is last year we established the 'Solar Water Heater System for Girls Hostel'. Under the scheme we have implanted 34 pipes with the capacity of 300 liters and which have available the facility of hot water to the girl students of

the hostel in every season. This practice helps us to keep our campus environmentally sustainable by saving so much electricity by replacing it with a natural source of energy.
